

ACCESSING

Hospital Care

Planning surgery, imaging, or needing hospital care? Here's what to know first.

Hospitals

MRI

Labs

Surgery

Outpatient

Open Access:

Because your health plan uses an Open Access Plan for hospital care, you can access any provider of your choice. *This includes: hospitals, surgery centers, imaging centers, and labs.*

Before Your Visit:

Complete any required pre-certification, bring your Fairos Member ID card, and ask the provider to contact the provider support number on your ID card with questions.

Questions?

Call the Member Support number on your ID Card, or Contact your Fairos Advocate.
